Local Boy Killed By Explosion

Bobbie Stubbs, 10-year-old son of Mr. and Mrs. William Stubbs, died Friday evening from injuries received when a gasoline drum exploded at the boy's home 14 miles west of town. It is thought the lad was playing with a cigarette lighter around the supposedly empty drum, which, when it exploded, threw the boy some feet backwards.

Flying pieces from the exploding tank struck the victim in the abdomen, causing broken ribs and severe injuries to the stomach. The boy was rushed to the Didsbury Hospital, where Dr. Clarke performed an operation in an effort to save his life.

The accident occurred at 4.30 p.m. and the operation at 6 o'clock, the child gradually growing weaker until death occurred at 9.30.

This is the second child that Mr. and Mrs. Stubbs have lost since coming to this district three years ago, moving here from the Lethbridge district, where Mr. Stubbs' father is a well-known contractor.

Coroner Dr. J. L. Clarke believed an inquest would not be necessary.

WEDDINGS

HERCHEK-PEARSON

A quiet wedding took place at the Manse of the United Church, Edmonton, on Saturday, October 26, when Miss Martha (Mollie) Pearson, youngest daughter of Mr. and Mrs. H. E. Pearson, of Didsbury, was united in marriage to Mr. Michael J. Herchek, of Chipman, Alberta. Rev. A. E. Black performed the ceremony.

The bride and groom were attended by Miss Irene Bellamy and Mr. Harold Love, of Edmonton.

The guests present were: Mr. and Mrs. H. E. Pearson and Mr. and Mrs. J. E. Gooder, of Didsbury; Mrs. C. Bellamy, Miss Irene Bellamy, Raymond Bellamy, Mrs. Murdoch, Mr. Art Reiber, and Mr. Harold Love, all of Edmonton.

After the ceremony a wedding dinner was served at the "Shasta."

The happy couple left on Sunday for Chipman, where the groom is principal of the school.

HUNTER-MORASCH

A very pretty wedding was solemnized at St. Cyprian's Church on Saturday, October 26, when Miss Sarah Morasch and Mr. Theodore Hunter, both of the Didsbury district, were united in marriage, Rev. A. D. Currie performing the ceremony.

The bride wore a powder-blue pebble crepe gown trimmed in white and gold, with a blue ribbon in her hair to match. She carried a bouquet of white chrysanthemums with green fern, and was given in marriage by her brother, Adam Morasch.

Miss Jean Hunter, sister of the groom, was bridesmaid. She wore a rust crepe dress, with a gold ribbon in her hair, and carried a bouquet of orange chrysanthemums and green fern. Mr. Julius Wood, of Athabasca, acted as best man. Gladys Hunter, niece of the groom, was flower-girl and wore a white satin dress with pink sash, and a ribbon in her hair. She carried a bouquet of pink roses.

The mother of the bride wore a dark brown crepe dress, and the mother of the groom, a black crepe dress.

After the ceremony Mrs. Emily Hunter, mother of the groom, served a turkey dinner at her home, which was enjoyed by all present, the Misses Louise Shultz and Esther Morasch waiting on the guests. The evening was spent in dancing until midnight, when the bride and groom opened a number of useful and beautiful presents.

The newlyweds left this week for Sylvan Lake and Calgary on a brief honeymoon.

Fire Breaks Out in Coal Sheds

An outbreak of fire was discovered early Monday morning at the Atlas Lumber Co.'s coal sheds near the depot. It is thought the fire was caused by spontaneous combustion in the bin containing slack coal.

The fire brigade responded quickly after the alarm and the fire was smartly and speedily got under control. Damage to the building and coal was estimated at about \$100.00.

Didsbury Gun Club's Annual Turkey Shoot

The Didsbury Gun Club will hold its annual turkey shoot on Monday, November 11, at the Butte. Shooting will commence at 1 p.m. sharp, both trap and target.

The Club has made arrangements for the best grade of turkeys, no bird to weigh less than 12 lbs. live weight. Dressed birds will be available.

The prize bird for each competition will be on display before shooting commences.

Tuxis and Trail Rangers Service.

The Tuxis and Trail Ranger Boys' Service held Sunday last at the United Church was fairly well attended in spite of adverse weather conditions.

The service opened with the hymn "Breathe on Me, Breath of God," led by the girls' choir. Earl Cummins, Chief Ranger of the Trail Ranger Group, acted as chairman.

Eddie Carleton read the Scripture passage from St. Luke 2:40-52.

Art Boorman gave a talk on "The Meaning of Tuxis," describing the Tuxis work, and Rev. J. R. Geeson delivered a very fine address on the text from Luke 2:52, "And Jesus increased in wisdom, and stature, and in favor with God and man." In his discourse the pastor spoke of the need of encouragement by the adults of the group work being carried on in Didsbury.

The girls' choir helped to make a very effective service, and during the latter a letter of greeting was read from Ormond Phillipson, a former Tuxis Boy.

BORN.

Friday, October 25th, 1935, at Three Hills, to Mr. and Mrs. Sid Gilson, a daughter.

Curling Club's Annual Meeting

The Curling Club held its annual meeting at the C.P.R. depot Monday evening.

The financial report showed the club to be in a good financial condition, while the budget for last year showed a deficit of \$12.50, the collection of arrears for previous years making it possible to show a credit balance on the year's operations.

The season's fees were again set at \$7.00, to be paid before January 1. The following officers were elected:

Hon. Patrons

A. G. Studer and W. G. Liesemer.

President: J. A. McGhee.

Vice-Presidents

Tom Johnson and Alex McNaughton

Secretary: J. W. Halton.

Chaplain: Rev. J. R. Geeson.

Schedule Committee

Dr. H. C. Liesemer and J. McCloy.

Membership Committee

J. Wordie, W. McFarquhar, C. Reiber

Ice Committee: The Executive.

Messrs. C. E. Reiber, A. Brusco,

A. McNaughton and W. G. Liesemer

were appointed a committee to

meet with Rinks Ltd. to make arrangements regarding the rink.

Canadian Legion Elect Officers.

The election of the officers of the Didsbury Branch of the Canadian Legion was held at the meeting on Saturday evening. The following officers were elected:

President, W. A. Austin

1st Vice-pres. J. D. Thomas

2nd Vice-pres., Ed. Craig

Secretary, W. W. Gillrie

Sergt.-at-arms, F. Moyle

Pianist, Dr. H. C. Liesemer

Standard bearer, W. Pitt

Executive: F. Kaufman, C. H. Ads-

head, S. Fairfax Brown, E. Cogswell,

Max Woods & H. Morgan.

Knox United Church Notes.

The pastor will be at Carstairs next Sunday for the anniversary service, and the services here will be in charge of Rev. C. E. Rogers, of Carstairs. Westcott 11 a.m., Westerdale 3 p.m., and Didsbury 7:30. A cordial invitation extended to all.

Sunday, November 10, there will be a special service in commemoration of Armistice Day. Members of the Canadian Legion will attend, and all Veterans are cordially invited.

SEASONABLE HARDWARE AT SPECIAL PRICES!

Cast Tank Heaters: Complete with grate, ashpan poker, pipe and spark arrestor. Size 14 x 24 \$10.75

Submarine Tank Heater: Made from finest quality heavy gauge steel. All seams electrically welded. Large Size \$11.75

Galvanized Coal Hods: Fitted with heavy bail, strong soldered joints 89c.

Guaranteed Storage Batteries: Will fit most Cars \$5.95

McClary Circulator Heaters: Large opening for wood or coal. Four bar style grates, will not waste fuel. Blue steel body with nickel trim. Large Size \$29.50

Sanitary Closets: Well made and nicely finished. Heavy galvanized pail with bail handle \$4.50

We have a few Secondhand Heaters at Bargain Prices.

Change And Rest

During the past two or three weeks radio fans, no doubt, have become rather tired of listening to the pleas and complaints of the politicians who have been making the welkin ring with appeals for support for the candidates of their choice, with fulsome praise for the policies of their own party and thunderous denunciations of the fulminations, fallacies and falsehoods of their opponents.

It was not very long ago that the opportunity afforded the farmer in the country and the citizen of the small town or village to absorb political knowledge and information—and sometimes misinformation—was restricted to one or two meetings during the campaign in the little school house on the other side of the pasture field or in the hall over the hardware store.

It often meant that the country resident had an opportunity of hearing only one side of the political story. A heavy fall of snow, a deluge of rain, the necessity of remaining home to act as nurse to a sick cow or to entertain unexpected visitors—all these and many other things—intervened to make it impossible to attend a second meeting and hear what the opposition had to say.

All that has been changed now. The politician has discovered the radio and the ability it gives him to reach into the homes of the land and pour forth his message, willy, nilly, into the ears of willing and unwilling listeners alike. And he took advantage of this facility to the nth degree during the Federal election campaign. Never in the history of Western Canada has the radio been brought into requisition so extensively to preach the gospels of tariff, internal reform, social credit, currency changes and what not as the solution to the ills to which the country has been, is and will be, a prey.

If the country and small town voter in the past has had to make up his mind how to cast his ballot on a meagre diet of data and information and, as was said just now, sometimes misinformation, to-day this condition is entirely reversed, thanks to the radio. By this time the average voter, who has not deliberately "tuned out" too often, certainly cannot claim that he had no opportunity of studying the issues which have been presented "over the air" in great diversity and with much frequency.

It is quite possible, on the other hand, that he may have some ground for complaint that the diet has been too heavy, decidedly mixed, in fact, that he has been surfeited with so much information, partial information and misinformation that the issues, instead of being clarified became more and more confusing with succeeding broadcasts.

While the radio can be thanked for having done much to make available to the electors a great deal of knowledge, on the other hand as a disseminator of political platforms and policies and party propaganda it has some disadvantages.

One of the disadvantages is the tendency on the part of a considerable percentage of political radio lecturers to gabble their speeches at a speed comparable to the recent automobile record established by Sir Malcolm Campbell. To the listener at the receiving end it appears as though the speaker had back of his mind something like the following:

"I am paying, or the party is paying (as the case may be) a dollar a minute for this. I am only allotted ten minutes and for the love of Mike (short for microphone) I've got to jam as much across the air in that time as my breathing apparatus will permit and get the greatest possible value for the money."

As a result the gentleman on the receiving end is lucky if he is able to catch more than one sentence out of every three and to absorb more than one of every six.

The political marathoner appears to forget, too often, that what counts is what he is able to plant in a receptive mind at the other end and not the number of words that he can shout into the mike—poor Mike—in a given number of minutes.

The political expounder also seemingly too often forgets that he starts on his race with a serious handicap compared with the platform orator at a public gathering. The latter is able to point his remarks or to emphasize his periods with a shrug of the shoulder, a lift of the hands or a flash of the eye and these devices, used with discretion, help the speaker to impress his views on the listener.

To the radio speaker all these and other devices of gesture, and personality of appearance and mien, are denied and he must rely solely on inflection of voice, distinct articulation and pause, for effect, and if he does not make full use of these his message may be nearly a total loss.

After a few weeks of repetition of political dietary the average radio fan may well be pardoned if he heaves a sigh of relief as he twiddles the dials and finds seeping into his consciousness the pleasing strains of a first-class orchestra, the well modulated tones of the players in a radio drama or even the thump of the drums and skirl of the bagpipes.

A change is as good as a rest.

Squirrel Put Out Lights

Seven villages in Madison and Onondaga counties, New York, used lanterns and candles for nearly five hours all because a grey squirrel clung to a grounded part of a power pole and stuck its nose against a wire. One of the wires was burned through.

A New Experiment

Dr. S. S. Brukhonenko, who has been experimenting in the revivification of animals, announced that a new state scientific institute is being organized at Moscow for experimental work looking toward the revival of human beings, after "incomplete death." He explained "incomplete death" is death such as from accidents where the vital organs remain intact.

Good Guernsey Record

The four-year-old Guernsey cow, Lark of Chicoma, owned by Dr. W. E. Wessels, Milner, B.C., has just completed an outstanding production record of 11,435 lbs. of milk and 624 lbs. of butter fat on twice-a-day milking, in 365 days.

Motor alcohol is being made from corn in South Africa. 2119

Striving To Reach Goal

Scientists Hope To Bombard Stratosphere With Speedy Rockets

Col. Charles A. Lindbergh, who mixes science with aviation, and Harry F. Guggenheim, the financier, gave the outside world a hint of the importance of ethereal experiments which may send rockets streaking into the stratosphere at super-speeds.

Tests at the desert laboratory of Dr. Robert H. Goddard brought Guggenheim's announcement that the Guggenheim Family Foundation would pour more funds into the enterprise.

The "important" problem of automatic stabilization of rockets in vertical flight already has been solved, it was reported authoritatively and projectiles have been fired in preliminary work at speeds approximately 700 miles an hour.

Dr. Goddard explained the success of numerous tests in which vertical flight of the rocket had been maintained by a gyroscope.

Renewed aid of the Foundation assured Dr. Goddard that now he may set out upon his prime objective; to send the rockets, propelled by liquid oxygen and gasoline into the outer space with recording instruments for stratospheric data of significant value to aviation and meteorology.

From a sixty-foot tower Dr. Goddard would shoot his twelve-foot rockets to altitudes greatly exceeding those which balloons are able to reach.

With his rockets he hopes to pierce the stratosphere in regions more than 30 miles high, so imperative to science, where electrical phenomena including ionization and the reflection of radio waves occurs.

Astronomical photography without the interference of the earth's atmosphere would be another prized objective.

Sikorsky Flying Boat

British Firm Secure Manufacturing Rights For Aircraft

British Aircraft Ltd., has acquired manufacturing license rights to the Sikorsky clipper flying boat, officials of the United Aircraft Corporation report.

Beyond affirming that the deal had been made with the Manchester, England, firm, United officials declined to give information about the negotiation between British Aircraft and the Sikorsky Aviation Corporation, of Bridgeport, Conn., which is a United member.

United officials did not comment upon a report that the four-motored craft are desired for use in Australia-New Zealand mail, express and passenger service. Sir Charles Kingsford-Smith, trans-oceanic flyer, was in Bridgeport recently during tests of the latest clipper ship. His presence there lent strength to the report of the Australian-New Zealand venture.

Palestine Is Progressing

But Men Newcomers Outnumber Women Two To One

Zionism in one way leads the world, for in Palestine there is no unemployment. There is work for all in the great program of building and of wasteland reclamation now in progress. Money from the outside continues to pour in, and adequate funds are available. But it has run into an unexpected difficulty. Among the newcomers the men outnumber the women two to one. It is the same experience so many lands have had. There is an alarming shortage of wives for the young men. That happened in the early days of Virginia, when it was necessary to send shiploads of marriageable girls to bring society to its proper equilibrium. History may repeat itself.—Cincinnati Enquirer.

Takes Time For Tea

John Bull may complain that he is one of the most heavily taxed men in the world to-day, but certainly he is not one of the hardest worked.

An expert construction foreman, who recently returned to England after spending a number of years in Canada, writes:

"This is a terrible country to work in. We stop work at 10 a.m. and again at 3 p.m. and get a cup of tea. They certainly don't know what hard work is."

Easy To Be Safe

Explorer Finds Cannibals Will Not Eat Man Who Smokes

Safety measures are being taken by an explorer against being eaten by cannibals. "Cannibals won't eat people who smoke—they think it impairs their flavor," declared Dr. Edgar de la Rue, French geologist, on landing in New York from France on his way to the Cannibal Islands of the New Hebrides. Dr. de la Rue said that he found it a wise precaution to take plenty of tobacco with him on his visits to the islands. He goes there for the purpose of making a survey for the Natural History Museum of France.

British Naval Program

Calling For Bids For Twenty-One Fighting Ships

Great Britain began calling for bids on 21 ships embraced by her 1935 naval building program.

Ten million pounds sterling (\$50,000,000) will be required for the 1935 construction program, it was estimated. This program falls within the limitations of the Washington naval treaty and is designed to replace over-aged ships. The new ships will include three cruisers, nine destroyers, three submarines, one submarine depot ship, four sloops, one survey ship, and several smaller vessels.

Work on this program was expected to be spread over about three years. Some of the fighting vessels will be built by the royal dockyards, and the construction probably will be in full swing by next spring.

Communication Boards

Japanese Railway Has New Idea For Helping Passengers

A new idea in railway comfort adopted in Japan would add greatly to our travel if it were adopted in this country. In every station blackboards are provided on which an inscription states: "Passengers desiring to communicate with friends expected later are invited to write messages." Here are some of the messages: "I waited half an hour, then took the 10.50 to Kyoto." "Can't go to-day; please don't be angry." "Have gone to restaurant, second floor." Evidently, trouble is suggested by this note: "My husband returned. Come next week."

Proved Their Efficiency

Emperor Selassie Decorated Three Guards For Arresting Him

Emperor Haile Selassie was arrested by three of his palace guards in succession—and the three were decorated. The Emperor is in the habit of donning peasant costume and making surprise inspections of Addis Ababa at night. He returned to the palace after curfew and found three of the imperial gates barred. At each gate he was arrested by the sentry on duty and released only when a sergeant was called out.

LAME BACK

Gin Pills give prompt relief from backache resulting from deranged kidneys. They soothe and heal irritated tissues and assist the kidneys in their function of eliminating poisonous waste matter from the system.

Program Of Laboratory And Field Work Investigation Of Minerals In Canada

Realizing the value of modern methods and technique in mining operations, the Canadian Department of Mines has in full swing a program of laboratory and field work involving investigations that will affect all branches of Canada's mineral industry. Laboratory tests and experimental work are under way that relate to such distinctly separate fields of endeavour as the greater utilization of Canadian coals in the domestic markets, the revising of ore treatment processes for use in Canada's new gold mills and the improvement in quality of ceramic ware.

The field program is equally broad in scope. Officers have been placed in strategic areas to gain first-hand information on the varied activities of the industry. Field work also includes a survey of the limestone industry in Ontario and British Columbia; a field study of the fire clay, and other high quality clay resources of certain areas in Northern Ontario; a study of the industrial mineral situation in Quebec, the Prairie Provinces, and British Columbia, a survey of industrial waters in Ontario and Quebec; and the investigation in Ontario of mineral products used for shingle bricks, mineral fillers, and sand blasting.

The heavy volume of tests and experimental work on gold ores continues as the feature of activities in the ore dressing and metallurgical laboratories. Treatment processes have been devised for practically all of the gold milling plants that have entered production during the year. Much of the work is in the nature of microscopic studies and experimental tests on ores and ore products from established gold producers. Test work on base metal ores has been confined largely to the development of new metallurgical processes for properties with proven ore reserves, and to problems relating to higher metal recoveries at established producing properties.

Ceramic investigations are mostly in the nature of laboratory tests and experiments. With the keen competition existing at present, manufacturers are making every effort to improve their wares in order to stimulate sales. The facilities of the laboratories are being utilized more and more due to the greater use in the clay industries of scientific principles, the introduction of new processes, and the development of new products.

Judging By Signs

Prospect For Long And Hard Winter In Manitoba

Manitoba's going to have a long, hard winter this year and it's coming earlier than usual, according to the folks who cast their eyes around about this time each year, seeking nature's portents of the season ahead.

Winter will come early this year, these nature lore expounders declare and point to the fact that the Canada geese returned to the prairies before the full of the harvest moon, which always indicates an early winter. Other signs are the flocking of the ducks to the prairie stubble fields long before cold weather and the busy squirrels storing up large quantities of food.

The weather prophet after gravely considering the mud chimney houses of the crawfish, better known as crabs, along the margins of ponds and sloughs, declare that this year the little stucco dwellings are bigger than usual. This, say the observers, indicates a cold winter.

Youth Must Be Served

Toronto proposes to ban the tooting of motor horns between 11 p.m. and 7 a.m. About the only reason the prohibition should not last from 7 a.m. to 7 a.m. is that some young fellows would have to resort to the courteous but more troublesome way of getting out and going up to the front door to let her know.

A useful export outlet for Canadian dressed poultry has been opened up in the British West Indies, 100 boxes having gone forward during the first week of August.

Barley For Growing Lambs

A Good Way Of Marketing Low Grade Grain

One of the best ways of marketing low grade and weedy whole grain is through sheep, either by fattening or wintering the sheep. Sunflower silage is a very valuable supplement to the ration when fattening lambs, but in the tests outlined here the only roughage used was oat straw. Three tests have been conducted at the Dominion Experimental Station at Scott, Saskatchewan, in comparing barley with oats for wintering female lambs held over for breeding purposes. Two lots of fifteen lambs each were used. The lots were divided as evenly as possible, according to individual weights and breeding, and the rations were identical except that one lot received oats and the other barley. The average quantity of grain fed was only about one pound per head daily, as the lambs were not to be marketed.

The trials lasted on an average 91 days and the average gain per head was 12½ pounds when the lambs were getting oats and 14 pounds when they were getting barley. It was observed that the gains were affected by the quality of either grain used and although barley gave higher gains in this test it appears quite probable that good quality oats would be superior to medium or low grade barley, pound for pound, in feeding lambs. Hence, the relative price and quality of each is the chief factor in deciding which to use for feeding growing ewe lambs.

Black And White Farm

Even Livestock And Poultry Fit Into Color Scheme

A farm in La Grange, northwest of Elkhorn, Wisconsin, has been dressed up in black and white. The "farm that matches," is owned by Hugh R. Adams, a Chicago manufacturer.

The cattle are Dutch belted and the hogs are spotted Polands, both of the familiar black and white combination. Two black and white goats, in polished black harness, haul the children about in a black and white wagon.

Turkeys on the farm are black and white and the chickens are Black Sumatras. Dogs and cats fit into the color harmony, and the horses are ebony, with white feet and blanch faces. All farm buildings are white, trimmed in black. Fence posts, which outline the property, are white with black caps, and the trees which shade the spacious lawn are whitewashed to the boughs.

Even the milk stools are white—with black underpins.

New Traffic Order

London Motorists Must Not Swerve To Avoid An Animal

England's humane societies are up in arms over the traffic ministry's latest order that motorists must not in any circumstances swerve to avoid an animal.

The order was issued after a motorist, fined \$50 for dangerous driving, pleaded he had swerved to avoid a dog. "A motorist who does so is an utter fool—for he does not know what human lives he might endanger," said the judge.

Owners of pets have sought to have the edict modified, arguing that a driver could in many instances dodge an animal without endangering traffic.

Freedom Of The Press

If Mussolini did not have 100 per cent. control of the press of his country, his power would be more than halved. Freedom of the press, like air and water, is not appreciated until it is no longer present, states the Hamilton, Ont., Herald. Canadians should remember this any time the slightest effort is made in their country to muzzle a newspaper.

Discovery of the most powerful ray man has ever produced, which penetrates a two-inch lead pipe as light does tissue paper, was recently revealed.

Per Centage Is Small

Fruit Exports Only Small Part Of World Trade

In few countries do fruit exports form a considerable item in the national export trade, says the Imperial Economic Committee's report on fruit. Notwithstanding the fact that in recent years the prices of fruit have fallen somewhat less than those of general commodities, exports of apples in 1933 accounted for just over two per cent. by value of Canada's total export trade, and for one and a half per cent. of the trade of Australia and of New Zealand. Normally, the proportion in these countries does not exceed one per cent.

Pear and fresh grape exports are of negligible importance, but exports of oranges averaged 15 per cent. of Spain's annual trade in the period 1928-32, and over 50 per cent. of the export trade of Palestine. Bananas account for over 80 per cent. of the exports of the Republic of Honduras, for about 60 per cent. of the Canary Islands' export trade, and for half the export trade of Jamaica and Panama. The wine export trade is of considerable value to Algeria and Portugal, where it accounts for over 40 and 30 per cent. respectively of the total trades. Exports of currants are responsible for about one-fifth of the trade of Greece. The proportion of canned fruit exports exceeds one per cent. in one country only, namely, Malaya. — St. Thomas Times-Journal.

A Law Unto Itself

Science Has Not Yet Discovered Secret Of Genius

"We do not know where great men come from," says Dr. Alexis Carol, who thinks science can eventually produce supermen. They come from the most unexpected places, and it is to be hoped nature keeps her secret. The physical standard of mankind can be raised by a higher level of economic well-being, which brings also greater opportunities for mental improvement, but genius has been always a law unto itself and probably always will be.

The coliseum at Rome accommodated 100,000 spectators, 87,000 of whom were seated. Its arena measured 182 feet from side to side, and 285 feet from end to end.

Highly Rust Resistant Wheat Is Originated At University Of Saskatchewan

Horse Coming Back

Use Of Horses Is On Increase In Prairie Provinces

Canada's horse population has declined greatly during the past fifteen years, due, principally, to the invasion of the motor vehicle into the field of endeavour so long ruled by the equines. Unable to compete with the speed and convenience of automobiles as a mode of transportation the horse naturally suffered in prestige, and with the adoption of power machinery on farms his sphere of usefulness became even more limited, with the result that the number of horses in Canada declined from 3,610,494 in 1921 to 2,933,492 in 1934, notwithstanding the growth of the country during that period.

Despite the continued decline in recent years, indications point to better days ahead for "Old Dobbin," with both horse population and demand on the increase. An estimate of the number of horses in Manitoba as at June, 1935, places the horse population at 297,000, an increase of 1,000 over the preceding year. Another favourable indication is the distinct increase in horse-breeding activities. Horse breeders' clubs in the Prairie Provinces numbered 166 in 1934, an increase of more than 30 per cent. over the number in operation in 1933, and a number of districts reported inability to secure satisfactory stallions. Imports of pure-bred stallions and mares of the draft breeds numbered 50 in 1933, and this number was more than doubled in 1934.

Race Track For Ethiopia

Emperor Haile Selassie of Ethiopia is going to build a race track despite war threats and wants to know how French pari-mutuels operate. The French Racing Association received a letter from the emperor asking full details, which were sent him.

Plants develop fever when they aren't feeling well, according to experiments by experts at College Station, Tex.

"Apex" is the name given a rust-resistant wheat which the University of Saskatchewan may distribute in small quantities this winter. It has been selected and increased after nine years breeding work there, Dr. J. B. Harrington, of the U. of S., announced. He considered that Apex presents a signal advance over Marquis for Saskatchewan conditions in general and particularly for the conditions such as those at the Scott Experimental Farm and north and east of Saskatoon. Thatcher, the wheat from Minnesota which is nearly as rust resistant as Apex, may outyield it under the conditions of eastern and southeastern Saskatchewan.

"The new highly rust-resistant wheat originated at the University of Saskatchewan has recently been named Apex and application has been made for the variety to be licensed. Apex was increased this year under contract at Humboldt and Bruno as well as on the university seed farm at Saskatoon and will be increased much more extensively in 1936. It is possible that distribution of small lots of this new variety may be made during the coming winter," Doctor Harrington said.

"The new variety, which, until recently, went under the designation A 75-1, is the result of nine years of extensive breeding and testing at the university, assisted financially by a grant from the National Research Council of Canada. Apex is the best of a dozen or more highly rust-resistant hybrid wheats which have come out of the university breeding program.

"Apex is so highly rust resistant that even under the very severe epidemic conditions in southeastern Saskatchewan this year, its straw was clean and bright in comparison with the badly rusted straw of Marquis. At the Kelso test Apex yielded at the rate of 24.2 bushels per acre of wheat weighing 59.6 pounds to the bushel and grading 2 Northern whereas Marquis in the adjoining plots yielded at the rate of only seven bushels per acre of shrunken wheat weighing 34.6 pounds to the bushel and grading feed. At Saltecoats, Apex yielded 38.5 bushels per acre of wheat weighing 63.8 pounds per bushel and grading 1 Northern, while the adjacent Marquis yielded 14.1 bushels per acre of wheat weighing only 45.1 pounds per bushel."

How was Apex originated? Doctor Harrington says this is a long story, for the foundational breeding was done years ago by E. S. McFadden, of South Dakota, and Dr. H. K. Hayes, of Minnesota, when they produced their rust resistant wheats H-44 and Double Cross, respectively. Doctor Harrington in 1926 crossed H-44 with Double Cross and in 1927 crossed the H44-x Double Cross hybrids with Marquis. From this triple cross, he and his assistants selected for several years and finally ended up with Apex.

"The high rust resistance of Apex comes from the combination of the emmer resistance in H-44 and the durum resistance in Double Cross," Doctor Harrington went on. "H-44 is the result of a cross between Yaroslav emmer and Marquis. Double Cross is the result of crossing Marquis with Lumilo durum and crossing the hybrids with Marquis x Kanred."

Thatcher is a sister of the Double Cross appearing in the pedigree of Apex and, like Apex, equals Marquis in milling and baking quality. Compared with Apex, Thatcher has shorter, stronger straw and is much less resistant to covered smut as well as less resistant to stem rust. On the other hand, Thatcher is highly resistant to loose smut and black chaff and in the southern Saskatchewan and Manitoba tests, has excelled in yield, straw strength and earliness.

These two new wheats, together with No. 716, which was produced by the Dominion Rust Laboratory at Winnipeg and announced recently at the Dominion department of agriculture, make three highly rust-resistant varieties which, by 1938, will probably replace Marquis over most of the rust area.

Gold mining centres in Soviet Russia now number 1,200.

The SNAPSHOT GUILD

SUNSETS

Sunset pictures add interest to your snapshot album.

Did you ever stop to realize how considerate Mother Nature is of the amateur photographer? Month after month she changes the appearance of landscapes, trees, shrubs and even the skies, giving us something new to snap almost every day.

She has now shifted her scenery to her autumn display of new flowers, colorful foliage and last but not least—beautiful clouded skies to serve us with fascinating backgrounds for landscapes and sunset snapshots.

Don't overlook the opportunity to capture a few of these beautiful sunsets for your snapshot album. They add interest to your picture collections and usually bring that highly prized remark from your friends—"There's a beautiful picture. How did you take it?"

An artistic sunset picture possibility is not waiting for you every night in the week so don't rush out the door after reading this and expect of get one. Maybe you will but it is doubtful. A good sunset picture is just one of those things you watch and wait for.

You will find that a foreground of water or a background of hills will add much to the interest and artistic appearance of your sunset. By all

means wait until there are clouds, for you will find that the clouds "make the picture."

No set rule can be made on the exposure time for sunset pictures but generally you will get a properly exposed negative if you set the diaphragm at f.16 and the shutter speed at 1/100 of a second. This setting of the diaphragm and shutter depends much on the brightness of your setting sun.

Believe it or not, attractive "moonlight" scenes can be made by sunlight. This is best done during the sunset hour and when there are masses of clouds floating in the western sky which create lighting conditions favorable for picturing "moonlight" scenes. The sun can be wholly or partially obscured and if the light is red, yellow or orange a snapshot exposure with a medium stop opening can be given.

To secure a night effect from a negative exposed in this manner, it must be printed long enough so that all but the highlights will be dark. If you don't do your own printing explain what effect you want to your finisher.

You will get a lot of pleasure taking these pictures and the result will be well worth your time and effort.

Calf and Steer Feeding Methods

At this time of year thousands of calves and steers are going into feed lots in Central Alberta. The profit to be made from these steers will depend, not only on the price of beef and the cost of feed, but also, to a great extent, on the method of feeding and management. The following feeding practices are recommended by the Dominion Experimental Station, Lacombe.

A mixture of barley and oats is the best Alberta-grown meal ration for fattening stock. When cattle are first put into the feed lot they may be fed equal parts of ground oats and ground barley. After the first month or so, depending on their condition, this may be changed gradually to two parts of barley and one of oats. If barley is not available low-grade wheat, although not so good for finishing may be used instead. If wheat is used it should be coarsely ground and mixed with oat-chop in the proportions recommended for barley.

At the start, only two to three pounds of grain per head daily should be fed, and the amount increased at the rate of one pound per head per week until the cattle are on full feed, about the beginning of the third month. Calves on full feed will consume up to eight pounds, yearlings ten pounds, and two-year olds fifteen pounds or more of grain per head daily.

When legume hay, greenfeed or prairie hay is being fed, it is well to allow all the cattle will eat, without wasting too much. Two-year-old steers will consume from fifteen to twenty pounds daily. When the animals are not making sufficiently rapid gains, the roughage ration should be reduced, so they will eat more chop.

As variety in the ration is extremely important, the greater the choice of feed the greater is the chance of success. In order to keep down the feed cost, home-grown feeds should be used to as great an extent as possible. If the feeder has alfalfa or sweet-clover hay he will not need to provide for much additional protein in the ration. When no legume hay is available, however, the feeding of linseed oil meal will usually result in considerably increased gains especially with calves. One quarter-pound of this feed should be allowed each animal to start with, gradually increasing until the full amount of one half-pound daily is being mixed in the grain.

Good water should be supplied at least once daily. If there is a constant supply before the cattle, all the better. In cold weather a tank-heater should be used to take the chill off the water; this simple precaution will save a great deal of feed in a cold winter. However, do not heat the water too much; over-heated water will frequently cause feeders to scour badly.

Doings of Our Neighbors

At Olds: The C & B Motors has changed hands, C. E. Broderson having sold out to Orton, Willis and Son, formerly of Calgary.

ITEMS OF INTEREST

A British election will be held in mid November. Two Social Credit candidates have been nominated, one in Bradford and one in Leeds, both these cities being in Yorkshire county.

Calgary Social Crediters have definitely decided to enter candidates in the civic elections to be held this fall.

Major Douglas leaves England for Alberta on November 2 to carry on his work here as reconstruction adviser under the contract entered into with the UFA administration.

Voluntary reduction of the higher salaries of the liquor board staff has been made, it was learned Saturday. While definite figures are not available, it was stated that the salary of R. J. Dinning is being reduced from \$9,000 to between \$5,000 and \$6,000 a year.

Two of Alberta's foremost ranch-hands Monday claimed the bronk-busting class of Madison Square Garden's world championship rodeo as their own. When the curtain fell on the 10th annual western show in the big arena Monday evening, Pete Knight, of Calgary, was named champion of the saddle division, with Herman Linder, of Cardston, right behind him. Knight piled up 3,497 points during the two weeks' long show. Linder's tally was 3,466.

Correspondence.

Editor, Pioneer:

While in Didsbury one morning recently I ran across an old friend of mine, a farmer, coming down the steps of the bank and stuffing a fair-sized bunch of bills into his pocket. Quite naturally we stopped to chat.

I could see there was something wrong, and pretty soon he said, "Say, Lew, what the dickens is the matter with the people in this burg anyway?" Right then I could feel the fuzz on the back of my neck commencing to rise; for if there is one thing that will get me on the prod quicker than anything else, it's to have a guy start beeling about something concerning my home-town.

"There's nothing wrong with the people in this town," I assured him, with as much equanimity as I could scrape together, "nothing whatever, except the farmers who come in here and don't know how to behave themselves." This with an air of finality intended to ward off further argument.

But my friend only seemed amused. "Go on," he said, "you're doing fine."

"Yes," I repeated, "it's the farmers. They come in here full of the idea that a nice place like Didsbury was created purposely for them to squirt tobacco-juice all over its sidewalks and stamp the cow-yard off their boots on to the floors of its buildings. Then they go round knocking everything from A to Z, even when they haven't yet settled their last year's store bills." Here I paused, to let it sink in. "Your audience is deeply impressed and we are asking that you continue," calmly announced the uncultured one, and bit off a fresh chew.

I now decided on a new front and forthwith proceeded to enlighten this ignoramus by enumerating a few of the many virtues for which our little city has become famous.

"Didsbury's stores and other places of business are second to none," I declared with enthusiasm. "The architecture of our buildings is restful to the eye of the observer. Nowhere else in the province will you find such a large percentage of model homes and contented citizens as in our thriving community.

"Is it churches or schools? We have them in number and quality. Are you looking for a place to settle down and enjoy all the advantages of a well-governed town? Then Didsbury should be your objective.

"In the matter of streets and sidewalks," I said, rising eloquent, we lead while all others follow. For sanitation and cleanliness we have built up a standard for other towns to go by. Our business and professional men stand out as living examples of probity and sound principles.

"Our public affairs," I told him, "are in the hands of men and women chosen for their honesty and uprightness of character. Mayor, top-notch; councillors, ditto; school and hospital boards, the same. Competent teachers; skillful doctors; pretty nurses; fearless cop. Didsbury's newspaper is the pride of every fireside for miles around, while its - - its - - I'm running low on gas now and commencing to sputter some.

"So that's it," my low-brow friend rudely cuts in with. "So that's it, eh? Well, it's plain to see that time hasn't done a great deal toward improving conditions between your ears. And the fact that you happen to be paying taxes on a couple of shacks in this rotten dump (frightful insult) doesn't necessarily entitle you to the privilege of spreading that we-and-our stuff on so thick either. Say, listen!" (here he spat, took a deep breath and started punctuating his syllables with vigorous taps of the forefinger on my shoulder). "Didsbury is going straight to the dogs all on account of this Wednesday half-holiday stuff. Look! Yesterday morning I found we were out of most everything. So, as George was away with the truck, right after dinner I hooked up to the wagon and drove in, plumb forgetting that the storekeepers in YOUR hamlet (mildly insulting) always peter out at noon Wednesday. When I got here I found everything closed tighter'n a Sunday School in hell. Blinds all down; so quiet you'd think the population was expecting an air-raid any minute. Couldn't get a thing I wanted

so drove back again. Pleasant, wasn't it? Sixteen miles by team all for nothing! Afternoon all shot to pieces! Said a few things I didn't mean—and some that I did.

"But they're not fooling me any more, they ain't. No, sir! (tap, tap). If the hombres doing business in this clutter of sheep-sheds (insult unforgivable, and ouch, my poor shoulder) don't want to take my money six days a week, they don't have to. Me'n the missus are heading south right now. Yes sir! (tap, tap). And we're gon'ta spend the money we got for that d—d frozen wheat some place else," he flung back, as he patted the bulge in his pocket and made for where his wife sat waiting in the truck.

Was this man partly in the right? As I stood there mechanically rubbing at the top of my left shoulder I felt inclined to believe he might be.

—LEW WRIGGLESWORTH

A "luxury tax" on beer, wines and hard liquor will be put into effect by the liquor control board of this province on November 1, it was learned Saturday on high authority.

Within a few weeks Alberta exhibitors in seed grain and livestock will be setting out once more upon the trail of the elusive prizes at the big exhibitions at Chicago and Toronto. In spite of the disappointing features of the 1935 crop season the province is almost certain to continue its great showing of the past, at least in some of the classes. A survey recently completed by the Alberta publicity bureau reveals that in the 13 years since the Royal Fair at Toronto was created, the province of Alberta has won a grand total of 2,770 prizes of all kinds in both grains and livestock at the two major exhibitions of the continent, the Toronto Royal, and Chicago International. This is a record which cannot be challenged by any similar territory in America. Of this total 740 were in seed grains, and the balance of 2,039 were in livestock, poultry, dairy products, etc.

WORLD HAPPENINGS BRIEFLY TOLD

Reorganization of the whole Alberta relief system will be undertaken by the new Social Credit government at the earliest possible date, Premier Aberhart stated.

Ninety per cent. of the 1935 graduates of the faculty of applied science and engineering of the University of Toronto have received employment, Dean C. H. Mitchell announced.

Vice-admiral Sir Humphrey Thomas Walwyn has been appointed governor of Newfoundland in succession to Admiral Sir David Murray Anderson, whose term of office expires next spring.

Col. H. C. Osborne, honorary director of the Dominion Drama Festival announced that Allan Wade, noted British stage authority, will be regional adjudicator during competitions in the 1936 festival.

Charlotte Acres, the Vancouver girl who won the five-mile swim at the Canadian National Exhibition at Toronto, said on her return home she may try to swim the English Channel next year.

As a gesture toward wiping out animosities of the Great War, the South Australian government, on the eve of a provincial centenary, decided to restore the German names of four towns.

For sale: One island, in excellent condition. The city of Vancouver has an island on its hands, and is looking for a prospective buyer. As an inducement, the city will build a bridge from the mainland to the island, if the price is right.

Sir Malcolm Campbell has purchased Headley Grove, a fine Georgian residence near Epsom, but Lady Campbell is authority for the statement that he is not going to settle down quietly as a country gentleman. "He will never give up his motor-racing interests," she says.

Discover Old Catacombs

Excavators In Poland Find Grim Relics Of Polish Revolt

Grim relics of the unsuccessful Polish revolt against Russian rule in 1863 have been found in a monastery at Vilna. Legend has always related that Vilna was honeycombed with underground passages, and recently researches were undertaken to find them. After several days' work tapping the floor of the 16th century Dominican convent the excavators found an underground passage beginning near the altar steps. Below was the old Dominican cemetery. Rows and rows of defunct monks lay in open coffins on slabs. In an adjoining chamber a ghastly sight greeted the explorers. Piled on each other in heaps were bodies of men, women and children, not decomposed, owing to lack of air. They were the remains of rebels who had hidden in the catacombs, been found and massacred by the Russians, and left where they had fallen.

China's Women Pirates

Terror Stricken Travellers Found They Were A Reality

China's women pirates, seldom seen but famous in song and story along the South China coast, were a grim reality to 300 terror stricken Chinese travellers who arrived at Amoy aboard the coastal steamer Lokiang. They and the ship were in the hands of two female buccaneers and 40 male subordinates for four days. The passengers and ship were robbed of \$250,000 in cash and silver bars, and the pirates, after killing one passenger and wounding three, escaped in a small boat to a pirate stronghold. The victims said the female chieftains were a strange mixture of merciless outlaw and sentimental womanhood. Before escaping to shore they gave a brother of the slain passenger \$70 "to provide a funeral" and \$2.50 to each passenger "for transportation."

A Dependable Escort

A strong man to accompany your wife or daughter to parties or shops can now be hired by the hour owing to the enterprise of a retired Budapest police official. You have only to telephone if you are busy in the evening, and a muscular chap will call to escort your wife to the theatre.

Praises Men In North

Well Worth Working For States Bishop Of The Arctic

Arctic citizens, white and native, of Canada are decent, law-abiding people, well worth working for, Right Rev. A. L. Fleming, Bishop of the Arctic, a former rector of Saint John, N.B., said on his arrival in Winnipeg from the East over Canadian National Railways.

"I have a great admiration for the white man of the North," Bishop Fleming said, "not because he is a religious man. Some of them are. Many are not. But because he is a real man, facing hardships with courage."

The health of the Eskimo, due to a combination of causes, is better than it was. In the first place, missionaries, the Hudson's Bay Company, or the R.C.M.P., were all able to give out destitute rations in time of epidemic or shortage of food, and the Dominion Government would refund the expenditure. In the old days the natives simply died without care. Increase of hospitalization and better medical superintendence gave the natives a better chance at healthy survival. Trading and police post staffs had some knowledge of medicine which was available to the sufferer, where there was no hospital.

In Bishop Fleming's diocese, which includes all of Canada within the Arctic circle and dips down to the 54th parallel at Fort George, two hospitals are operated under his supervision, one at Pangnirtung, Baffin Land, and the other at Akklavik, at the mouth of the MacKenzie River.

Eskimo youth graduating from mission schools were being absorbed into the growing life of the North. But they "must be trained in the North," said Dr. Fleming. He told of boys from the Anglican residential school at Shingle Point, Mackenzie River, being taken on as apprentices in herding the reindeer recently brought to that part of the country. He saw a future for Eskimos in this work.

Dionne Quintuplets Bowl

Offered As Gift

A surprise gift offer which will interest every parent, every child and, in fact, everyone who has ever heard of the world-famous Dionne Quintuplets, has been announced. The article offered is a cereal bowl created in honour of the five little sisters and called the Dionne Quintuplets Birthday Bowl. Made of shining lifetime smartly designed in modern lines, and chromium, it is six inches in diameter, embossed inside with a charming sculpture of the "Quints". On the rim are engraved the names of the babies — Emilie, Annette, Marie, Yvonne, and Cecile. Besides being an ideal cereal bowl for a child, it makes a distinctive olive and celery dish or bon-bon dish.

Readers can obtain this delightful gift by sending two trade-marks from packages of Quaker Oats, plus fifteen cents to help cover postage and handling charges, to the Quaker Oats Company, Saskatoon, Sask.

Iron Jewelry Once Prized

Other Metals Replaced By New Discovery In 500 B.C.

Iron jewelry—not gold gems or diamonds—was most prized by the women between the Mycenaean period and 500 years before Christ, Professor T. Leslie Shear, archaeologist of Princeton University, has discovered. In his excavations in the Athenian Agora or market place, Dr. Shear has unearthed many bodies of women bearing ornaments of iron, including necklaces, rings and bracelets. Dr. Shear's explanation is that iron had just been discovered about that time and replaced in vogue among the women ornaments of gold, bronze, copper and other metals.

The office boy hadn't been there long when his employer looked up from an important letter and said irritably:

"Don't whistle at your work, boy!" "I ain't working, sir," he replied; "I'm only whistling." 2119

Italian Soldiers Deserting

Hundreds Have No Desire To Fight In Africa

Ludwig Loring, in the New York Post says Italian soldiers are deserting to Switzerland, France and Yugoslavia by the hundreds. They have no desire to give their lives for their Fascist fatherland, preferring the uncertainties of a refugee's existence to the certainty of disease and death which awaits those who go to Africa at the Duce's command.

Nuovo Avanti (Paris) publishes interviews with a number of these deserters. "The troops leaving for Africa," says one, "have no faith in the Government's optimistic reports. The Government may deny that disease is ravaging the expeditionary forces. The soldiers know better. You will find a strong anti-war sentiment even among the Fascist faithful. In Milan I was given a leaflet urging young men of Italy to flee, to refuse to go to war. In one district, (Rovereto) every soldier with whom I spoke was either indifferent or positively opposed to war. If running away were not a matter of money, hundreds of thousands would have made their way across the borders to evade conscription. . . ."

India Becoming Richer

Research Shows Standard Of Living Is Also Higher

India is growing richer rapidly, according to researches made by B. B. Sen, I.C.S., of Bombay, who has been Press Officer to the Government of Bengal. The Government has just published his brochure in which he argues that the higher standard of living can be seen from the increase in the consumption of a large amount of articles imported from foreign countries as well as those of local production. The per capita consumption of cotton cloth in the beginning of the twentieth century was only 8.39 yards; it has now risen to 12.11 yards, an increase of over 50 per cent. He also points out that, while the average income has risen from 20 rupees in 1871 to 107 rupees in 1921, the rise in prices during this period has roughly been two and a half times. This shows, he says, that the real income of the mass of the people has been doubled.

A new plastic "glass" has nothing in common with ordinary glass, except its transparency. It is probably a cellulose derivative like cellophane.

Paper linings have been invented for the tops of coffee percolators to prevent the ground coffee falling through and facilitate its removal.

Hitch-Hiker From California Says Canadians Are Kind

Bent on seeing the world and not inclined to join the navy, Kenneth Kiley, 17-year-old Los Angeles college student, hitch-hiked his way from the California city to Regina, Sask., in seven days.

A disarming smile and a wiggling thumb is the hitch-hiker's secret of success, according to this young knight of the road, who covered the 2,500-mile trip with only 30 different lifts. He said the smile worked especially well with the weaker sex.

Kiley was impressed with Canadian hospitality. Not only did he manage to thumb rides with greater ease on this side of the border, but many of his hosts tossed in a meal as well. The greatest eye-opener in the whole trip to the young adventurer was watching the thousands of grasshoppers hopping through the crops south of Regina.

Arabs Form First Parliament

Nomads Of Near East Select Sheikh As President

That the Bedouins, the Arab nomads of the Near East, have formed their first "Parliament," has been reported from Cairo, Egypt. Delegates from 75 Bedouin tribes, representing 1,000,000 Bedouins of Egypt, met under the presidency of Sheikh El Arab S. E. Hamad El Bassel Pasha. They formed a committee to deal with such questions as the development of compulsory education among Egyptian Bedouins, protection of the rights held by Bedouins, the preservation and maintenance of Bedouin customs, and contribution to the development of intellectual intercourse between the Bedouins of Egypt and those of Arab countries.

Task Nearing Completion

Book Of Remembrance Will Be Finished In Two Years

The Book of Remembrance which will be deposited on the altar in the memorial chamber at Ottawa will be completed in about two years. The names of more than 70,000 Canadians who died in service during the war or who died of war disabilities prior to April 1, 1922, will be inscribed in the volume. The work of compiling the Book of Remembrance is in the hands of James Purves of Ottawa who, when he was assigned to the task, undertook to complete it in five years. He has now been engaged on the work for the past three years.

British excavations in the Shetland Islands reveal remains of buildings of Vikings in the 10th century.

A Colony Of Forgotten People

Families From Southern States Live In Amazon Jungle

The discovery in the Amazon jungle of a colony of "forgotten" people, descendants of aristocratic Southern families who migrated, by Dr. W. H. Haas, lecturer and Professor of Geology at Northwestern University, Chicago. Dr. Haas came upon the colony during one of his exploration trips up the Amazon. The colony is named Santerin, and is situated on the banks of the Tapa Jos River, a tributary of the Amazon. The settlement, Dr. Haas said, is 600 miles inland from the ocean. In the tiny village of about 300 people, Dr. Haas met a woman who had moved to the tropics immediately after the war between the States. "She was living in the past," he declared. "As I talked with her she seemed to forget her bedraggled clothes, her bare feet and her primitive surroundings. She recalled her father's extensive plantation back in Alabama, with slaves singing and working in the cotton fields." She told Dr. Haas that a number of Southern families, who were dissatisfied when their slaves were freed as a result of the war, moved to the Amazon basin, where slavery was permitted and where they hoped to begin life anew. But the hopes of these plantation owners were soon blasted. The moist climate was not fit for growing cotton and there was no market for other products. In the midst of dense forests and located so far from civilization, they could not make contact with prospective buyers. Many of the younger Southerners, dissatisfied with the poverty and ignorance of the village life, returned to the United States. The others remained to eke out an existence by growing pumpkins, cocoa and beans.

New Optical Apparatus

Instrument Just Produced Makes It Possible To See Heat

For a long time the electrical industry has been troubled on account of the heat generated by an electric-light bulb tending to rot the flex which suspends it. In consequence, the British Electrical and Allied Industry Research Association asked three young London scientists to find a remedy.

These scientists have been at work for nearly three years and have produced an optical apparatus which makes it possible to see heat. Looking at a suspended electric-light bulb through the instrument, one can see heat like smoke licking round the flex, just above the bulb.

The apparatus can also be put to other useful purposes, for instance, finding the best methods of heating and ventilating rooms, theatres or factories. With a small model of a room one can see the draughts and paths of heat.

A test made with a heated rod makes it look like a flaming brand. Even an outwardly cold hand placed against the instrument appears to be on fire, and one's breath, even in a well-warmed room, looks like a jet of tobacco smoke.

The Safety in Mines Research Board are already using the device for discovering the force and effects of explosives.

Resent Competition

Professional Beggars In Paris Want Protection Against Amateurs

Unfair competition is claimed by Paris beggars. With the approach of the tourist season, the official newspaper of French beggars—Le Journal des Mendigots—published a vigorous editorial calling on all professional charity-seekers to defend their interests against amateurs. This newspaper, which has a tremendous circulation among mendicants, points out that non-professional beggars are trying to crash the beats reserved for professionals. It demands that a united stand be made by all self-respecting members of beggarmdom against these "enterprising upstarts."

An Oxford don says that he has kept statistics for years and finds that no red-headed man or woman ever won a first in history at the university. If this is how he occupied his time it is surprising that anybody got a first, or even a pass.

PATTERN 5446

Forward march—that was the order for the Fall beret. And it has done just that and we've fallen right in line and like its forward trend. Why shouldn't we when it adds that "come hither" look to the flattering beret. You'll like this crocheted one with its matching purse—they're both so easy to make. The chief decoration, the ribs, are arranged in a fan-like design. You can make it of Shetland as well as other wools. So get out the crochet hook and let it work wonders in adding the chic of these matching accessories to your wardrobe.

In pattern 5446 you will find complete instructions for making the set shown; an illustration of it and of the stitches needed; material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

ASK YOUR DOCTOR FIRST, MOTHER

Before You Give Your Child an Unknown Remedy to Take

Every day, unthinkingly, mothers take the advice of unqualified persons—instead of their doctors—on remedies for their children.

If they knew what the scientists know, they would never take this chance.

Doctors Say PHILLIPS' For Your Child

When it comes to the frequently-used "milk of magnesia," doctors, for over 50 years, have said "PHILLIPS' Milk of Magnesia—the safe remedy for your child."

Remember this—And Always Say "Phillips' Milk of Magnesia." When you buy, your child deserves it; for your own peace of mind, see that you get it—Genuine Phillips' Milk of Magnesia.

Also in Tablet Form:

Phillips' Milk of Magnesia Tablets are now on sale at all drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of Genuine Phillips' Milk of Magnesia.

PHILLIPS' Milk of Magnesia

SYNOPSIS

Nancy Nelson is a sub-deb, a gay, irresponsible girl of nineteen, with no care beyond the choice of her costume for her coming-out party. Suddenly, in the market crash, her indulgent father loses all he had, and his family is faced with the necessity of a simpler method of living. At this juncture a letter is received from an eccentric relative in Colorado, who offers the girl a home on what seems to be impossible conditions.

After much consideration Cousin Columbine's offer is accepted, and Nancy and Jack arrive at Pine Ridge.

Nancy set out one afternoon to climb to the top of a hill so as to obtain a view of the surrounding landscape and misses the path Aurora Tubbs had told her to follow. A truck comes along the road, driven by Matthew Adams, and she asks him which way to go. They ascend the hill, look around, and then go on to Cousin Columbine's. There Mark Adam tells Nancy that his brother Luke has broken his leg, and that Jack Nelson has been hired to help out while Luke's leg gets better. With Jack away, Nancy finds that she is lonesome, and having no books to read, the idea of starting a public library at Pine Ridge seems a good one, and Nancy writes home to get her parents to send all the books they could spare and all they could induce others to let them have.

Nancy's parents and friends gave their liberal support to her request for books, and a sizeable box arrived in due course. Father Adam painted a sign for the library, and the Adam boys worked on the shelves for the books and decorations to make the room look presentable.

Jack Nelson, Matthew Adams, and Nancy go to the prairie home of Matthews' uncle for the ride, and after

Nancy and Jack leave for home, they are caught in a blizzard. Blinded by the swirling snow they collide with a bus full of school children, which was stalled across the road with its back wheels resting in a snow-filled gully. Their car being wrecked, Jack and Nancy stay with the children and do all they can to help. The next morning Jack sets out for help in the blizzard.

Now Go On With The Story

CHAPTER XVIII.—Continued

Tom Osgood, stripped to his overalls and cotton shirt, was putting his clothes on the boy who had given up Jack's coat. Without Tom's help, Nancy told herself, she could not endure much longer. That boy was a hero! How many times had she seen him, when on the brink of dozing, pull himself together valiantly to help the younger ones. Why, he was drowsy now, poor darling! His task accomplished, he had slumped onto that huddled mass upon the floor. Oh, he mustn't go under! Not brave little Tom Osgood! Nancy dragged herself up, shaking the boy with all her failing strength.

"Wake up, Tommy! I need you! We must help these children. Don't go to sleep, Tom. . . . Keep fighting. . . . fighting. . . ."

An hour later when the bus door snapped opened and Matthew Adams, his uncle, and two grim-faced fathers stepped fearfully inside, Nancy's fur coat was covering a mound of children, while the girl herself, almost too spent to realize that help had come, sat on the floor amid a drift of snow with only a child's thin sweater covering her thin silk underwear, nodding, nodding, as she rubbed mechanically at a small boy's frozen feet.

CHAPTER XIX.

Such events are "news" to the Associated Press. On the morning after that momentous blizzard James Nelson arose early, for Margaret was convalescing from an attack of flu, and the woman who had been coming in to help was also ill. Hence it devolved on Dad to get the family breakfast; but before beginning this unaccustomed duty he stopped to take in his morning paper.

Spring had come early to Edgemere. The air, James noticed, was almost balmy. He had a melodious whistle, and Mendelssohn's "Spring Song" was on his lips when, suddenly realizing that time was fleeting, he turned toward the kitchen.

"Hello, there!" greeted Phil on his way downstairs; and smiling, James tossed him the paper without looking at it.

"Take that up to your mother, Phil. She may like to glance at the news before I go. But come right back, sonny. I need a cook's assistant! And ask how much coffee I ought to use."

Margaret looked up happily as the boy entered her room.

"It's good to hear Dad's whistle, isn't it?" she said, recalling the long months when that cheerful sound was silenced. "I feel like a slacker lying here while he turns cook; but the doctor says I'm not to stir for another week. Thank goodness Aunt Louise will be out to-night! Don't stop to read the paper, Phil; and tell your father a heaping tablespoon—"

"Look here!" The small boy's eyes were bright with interest. "There's been a awful blizzard in Colorado! I wonder if it was near Cousin Columbine's."

Margaret reached for the paper, continuing almost automatically: "A heaping tablespoonful to every cup, Phil." Then as he ran to join his father, her eyes fell on these arresting headlines:

"TERRIFIC BLIZZARD SWEEPS COLORADO PLAINS. BUS FULL OF SCHOOL CHILDREN SAVED BY TWO YOUNG PEOPLE AFTER THE DRIVER, GOING IN SEARCH OF HELP, BECAME CONFUSED AND DIED IN THE STORM."

"Denver, Colo., March 27th. (AP) A story of heroism and self-sacrifice was enacted yesterday afternoon in a school bus stalled on the Colorado prairies, when Nancy Nelson, nineteen, popular sub-deb, daughter of Mr. and Mrs. James C. Nelson of Boston and cousin of Miss Columbine Nelson, pioneer resident of Pine Ridge, Colorado, stripped to her underwear in order to put her clothes on children who were freezing to death before her eyes; while her brother Jack, seventeen, facing the storm in hope of bringing help, succeeded in reaching a distant ranch where he collapsed after giving news of the whereabouts of the missing bus. Without the heroic action of these

GILLETT'S LYE EATS DIRT

two young people, sixteen children would undoubtedly have perished. Frantic parents—

Margaret read no further because her hands were shaking so that she could not see the type; but she managed to call, a call that somehow startled her husband; and at that very moment the front door bell rang.

John set the coffee pot on the stove, and said: "You answer that bell, son. I'll see what Mother wants."

Margaret was lying back against the pillows, her face colorless. One hand still clutched the paper, and a limp gesture told her husband he was to read it. He sat on the bed, and, strangely, his daughters' name stared up at him as he took the sheet, even before he saw the headlines.

"... Nancy Nelson . . . stripped to her underwear . . . brother Jack . . . collapsed. . . ."

"It's a telegram!" cried Phil, bursting into the room in great excitement. "Maybe it's from Cousin Columbine asking me to visit her. Open it quick, won't you? Why—what's the matter? Is Mother sick again? Gee! there's the telephone. What'd it have to ring for now?"

As he sped away, his father stared down at the yellow envelope. For a moment it seemed as if he could not face its contents. Then, bracing himself inwardly, he tore it open, eyes seeking the signature before he read:

DON'T BE UNDULY ALARMED BY REPORTS IN PAPERS STOP BOTH WILL HAVE BEST OF CARE AT HOSPITAL STOP JACK MAKING GOOD FIGHT AGAINST PNEUMONIA AND ALL POSSIBLE BEING DONE STOP TELEGRAPH IF COMING STOP WILL WIRE AGAIN AT NOON AFTER TALKING WITH DOCTOR STOP AM PROUD OF OUR CHILDREN COLUMBINE NELSON.

Margaret, watching his tense face, cried out: "Is—is it—"

"Not that!" James broke in quickly. "Not that, dear!" and read the message, his voice trembling. Then the small boy was back, calling as he ran up the stairs: "It's Aunt Lou on the telephone. She wants you, Dad. Where's that telegram? Was it—"

When James returned five minutes later there was a bit more color in Margaret's face, and Phil, avidly perusing the story, lifted his head from the newspaper to exclaim. "Gee, Daddy! Jack wasn't wearing any socks! He'd put 'em on a little feller that was freezing. And Nancy had given her stockings to some one too, and her dress'n her fur coat and everything. She had one o' the kid's sweaters over her slip. She got unconscious soon as they found 'em. One of those Adam fellers got there first. They'd been to his uncle's ranch and got caught in the blizzard on the way home and collided with that bus. It says they showed unbelievable heroism; and the driver was found a mile off the road under a snowdrift. Nancy's legs are frozen to—"

He ceased abruptly at a warning glance from his father.

"That's enough now, Phil. Louise had seen the paper, Margaret, and was rather worked up—for Louise. Another teacher will take her classes and she'll catch an early train out here. I'll stay until she comes, dear. She asked if we were going to Colorado, but—"

"I—I feel as if I must, Jim," said Margaret weakly. "If Jack has pneumonia he—he's grown so fast that—"

"The last letter said he'd gained twelve pounds," the little boy reminded them, "and Nancy said he'd never looked so husky."

"I know, but . . ."

Her lips trembled, and James interrupted: "I understand how you feel, Margaret; but it's impossible for you to travel now. This flu's so treacherous if one gets up too soon. But I'll drop everything and go myself unless the next telegram is reassuring. I promise that."

"Is pneumonia a very bad thing to have?" questioned Phil soberly.

"Pretty bad," Dad answered, thinking that should Jack not weather it his mother could scarcely reach him in any case. "Now close your eyes, Margaret, and I'll bring some coffee.

You'll feel stronger when you've had something to eat."

Louise Nelson said afterwards that she spent that entire day answering telephone and door bells. The news spread fast; and friends and neighbors responded anxiously. A number of Nancy's schoolmates called up from town, as well as some of the far-famed "boy friends." There were calls from Exeter asking if Jack was as badly off as the papers intimated; and it seemed to the distracted woman that she had no time in which to cheer the invalid.

Cousin Columbine was better than her word, the second message arriving almost an hour before promised. Louise called her brother's office and read it to him.

"It's addressed to you, Jim. She says: 'Doctor thinks things look rather better, and considering how far away you are, advises you not to start immediately. Jack doing as well as can be expected. Nancy suffering greatly but her courage is good and will increase as weakness wears away. Letter follows this, but will write and wire daily for the present. Shall stay near Glockner Hospital so address me there.'"

"Then Dad won't go?" asked Phil, hovering near as his aunt telephoned. She shook her head.

"Are they both better?"

Aunt Louise nodded because speech came hard. The message was hopeful, yet she seemed to read something between the lines. Pneumonia, she thought, sometimes travels faster than a railroad train. Was that why the doctor advised Jack's parents not to come?

(To Be Continued)

Ponds may be larger than lakes; their strict difference lies in the depth. True ponds are always shallow. 2119

Evangelical Church Notes

The pastor's sermon subjects next Sunday will be as follows: Morning "Overcoming Discouragement," and evening, "Friendship With Christ." The evening service will be a special young people's service in charge of the Senior League of Christian Endeavor.

Muriel Brightman and Clayton Dippel won the prizes for the best and funniest costumes, respectively, at the senior league Halloween social.

The Albright Brotherhood meeting was not held Tuesday night on account of the storm.

WEEKLY SERMONETTE

Were half the power that fills the world with terror;
Were half the wealth bestowed on camps and courts
Given to redeem the human mind from error—
There were no need of arsenals or forts.

Three Seed Fairs For Province

Instituting a new policy calculated to enlarge the scope of the annual Alberta provincial seed fair, Hon. W. N. Chant, minister of agriculture has announced that the seed fair will now be reorganized to provide three district fairs for the province, instead of a central fair at one point only.

These three fairs, it has been decided, will be held at Lethbridge, Calgary and Gratiot. A provincial championship in each class will, however, be provided for, arranging that the 1st prize winners at each of the district fairs will be permitted to compete in a championship contest at the district fair last to be held, which this year will be at Calgary. As prizes for the championship classes, the 1st prize monies in each class will be duplicated.

CARD OF THANKS

We wish to thank our kind friends and neighbors for their sympathy and help during our great bereavement.—Mr. & Mrs. T. W. STUBBS

C.G.I.T. Rally

On October 25th about 60 CGIT girls of Bowden, Innisfail, Didsbury, Olds and Carstairs gathered for a rally in the Knox United Church, Didsbury.

The girls "warmed up" and got acquainted by collecting each others autographs. A delightful supper was served under the auspices of the Didsbury girls. After supper Winnie Adshead welcomed the visiting girls while Ruth Rastrup, of Carstairs, replied. Rev. Mr. Geeson of Didsbury also gave a welcome speech.

After supper the tables in the basement were cleared away and Myrtle Locke of Bowden led the girls in games. Reports were received from groups in Bowden and Olds and Didsbury and the president, Myrtle Locke and press reporter, Ruth Rastrup were elected. The girls of Didsbury then gave a very delightful old-fashioned "Folk Dance."

The group next congregated in the church for a singsong led by Lois Edwards. Betty Boorman then played a Cello solo.

Miss Lillian Carscadden took charge of the program which consisted of news flashes from "A European Girl", by Lillian Cook; "An African Girl", by Margaret Craig; "An Indian Girl", by Elizabeth Ure; "A Factory Girl in Canada", by Elizabeth Austin.

Following this speeches on the C.G.I.T. motto of A New Girl, A New Home, A New School, A New Church, A New Nation, A New World were given. A fine Worship Service and Candle-lighting Ceremony led by Miss Carscadden closed a very jovial and inspiring evening.

Burnside Notes.

Mr. Ole Skarr, of Vancouver, is visiting Mr. and Mrs. N. Eckel.

Mr. and Mrs. Hank Fisher and Loraine and Mrs. Archie Weber were Thanksgiving visitors at the McLean home.

Robert Eckel and Alvin Kiever of Sunnyslope left on Sunday to attend the Provincial Technical School at Calgary.

Mr. Fred Metz spent Sunday with Allingham friends.

Miss Zook, who has been visiting Mrs. B. Woods, returned on Friday to her home at Condor, Alta.

There will be a dance in Lone Pine Hall on Wednesday evening, November 6th.

Mrs. C. L. Cipperley and Leita left on Monday to spend the winter with her daughter Miss Dorothy Cipperley in Calgary.

RUGBY NOTES

Last Thursday night a reception was held at Rugby for Mr. and Mrs. Lorne Frey. Mrs. Frey (nee Ruth Brubacher) was one of Rugby's most popular and successful teachers. Many friends from Inverness, Zella, Elkton and Garfield, as well as Rugby, gathered to extend good wishes and congratulations. Those assisting in the program were Douglas Hosegood, Albert and Lawrence Krebs, Billy Novacluse, LaRue and Lucille Russell, Eva and Oma Brown, all former pupils of Mrs. Frey, and Mesdames Hosegood, Evans, Hogg, J. A. Hughes, A. Vipond, P. Worthington, the Misses Evans and Seers, Mr. Arnold and Master Colin Hogg. At the close a small gift from those present was presented to Mr. and Mrs. Frey, for which each, in a neat little speech, expressed his and her thanks. Three Cheers, Lunch, Auld Lang Syne and God Save the King, concluded the evening.

Rugby W.I. will hold its November meeting at the home of Mrs. George Youngs instead of at the home of Mrs. Carlson, owing to the latter's illness.

Messrs. Charles Brown, James Hosegood and J. A. Hughes attended the stock show in Calgary last week.

Room & Board for 2 School Students.—Apply Mrs. J. W. Halton. (39)

LOCAL & GENERAL

Mr. Roy Warren of Calgary was renewing acquaintance last week with his many friends in this district.

C.G.I.T. Girls will hold an Armistice Tea and Food Sale in the Leuzler Block Saturday, Nov. 9.

Wanted Girl for General Housework. Must be good cook. Local girl preferred. Apply Pioneer Office.

Mrs. A. G. Studer and Wynne spent the week at Lethbridge visiting Mr. and Mrs. Cecil Studer.

Arrival of New Coats, Dresses, Skirts, Blouses and Millinery at Mrs. Wilson's, Main St. (43)

George Liesemer and Gene Axtell drove out to the Raven last weekend to visit with the latter's parents, Mr. and Mrs. A. W. Axtell.

The CPR is advertising a cent-a-mile rate to Calgary, November 1-2. Return can be made up to 5:05 p.m. November 4.

For Best Values in Wool Mitts & Leather Pullovers go to T. E. Scott.

Mrs. W. E. Morrow of Lethbridge visited her parents, Mr. and Mrs. H. M. Reiber last week. Mr. and Mrs. Reiber drove her back to Lethbridge and spent a few days there.

Miss Helen Matthews was home over the weekend. She says Didsbury isn't such a bad town, but they make you work like heck in school—"Torrington News" in the THREE HILLS CAPITAL.

Buy Your Overshoes and Rubbers from T. E. Scott.

Westcott W. I. will hold their annual bazaar at Westcott School on Friday, November 15 at 8 p.m. Fancywork, sewing and other articles will be auctioned. A good program. Adults 25c, children under 15 free.

Mr. G. A. Wallace, of the Atlas Lumber Co., wishes to thank the fire brigade and others who helped save the coal shed when fire broke out Monday morning. Their excellent work prevented what might have been a serious fire.

Messrs. J. A. McGhee and J. E. Gooder represented the Didsbury Fish and Game Association at the Convention of the Alberta Fish and Game Associations held at the Corona Hotel, Edmonton, on Saturday last. About 75 delegates were in attendance. In the evening a banquet was held in honor of the delegates, fish and game supplied by the Edmonton sport-men, being the principal part of the menu.

Try T. E. Scott for All Lines of Men's Working Clothes.

Of interest is the announcement of the engagement of Kathleen, only daughter of Mr. and Mrs. A. H. Lord, of Winterburn, to Rev. Elliott Henry Birdsall, M.A., B.D., of Winnipeg, eldest son of Mr. and Mrs. W. E. Birdsall, of Didsbury, the wedding having been arranged to take place at St. Peter's College Chapel, Edmonton, the latter part of November. Rev. Birdsall and Miss Lord are both graduates of the University of Alberta, Miss Lord having obtained her B.Sc. in nursing.

We Have Women's Laced Galoshes in black or brown for \$3.75—T. E. Scott.

Things To Remember

Don't forget the C.G.I.T. Armistice Tea and Food Sale on Saturday, November 9 in the Leuzler Block.

Thanks.
